

# Child Health Plus Formulary Guide (2977)

Includes generic and brand-name medications

Right here.  
For you.

[UniveraHealthcare.com](http://UniveraHealthcare.com)

## Dear Member,

This booklet includes the Formulary Guide and gives you easy to understand information about your prescription drug coverage.

The medications listed have been approved by the Food and Drug Administration as safe and effective. We continually review and update our formulary.

If you have any questions or need additional information, please visit our website [UniveraHealthcare.com](http://UniveraHealthcare.com) or contact the Pharmacy Help Desk at 1-800-650-4359 or TTY/TDD 1-800-662-1220.

Please see your plan documents for a complete description of your pharmacy benefit.

## What is a formulary?

A formulary is a list of brand name and generic drugs that are covered under your prescription drug benefit.

All generic drugs and brand name drugs listed on the formulary are covered.

If your doctor writes a prescription for one of the drugs listed on the formulary, you can go directly to one of our participating pharmacies to have your prescription filled.

If your doctor writes a prescription for a drug that is not listed on the formulary, it is considered “non-formulary.” Non-formulary drugs are generally not covered. They may be covered if your doctor shows that you meet the medical guidelines for the drug and gets approval before you get your prescription filled.

## How do I use the formulary?

There are two ways to find your drug within the formulary:

### Medical condition

Drugs are listed in alphabetical order according to drug categories. For example, drugs used to treat heart conditions are listed under the category “Cardiovascular.” Drugs are listed in alphabetical order by condition.

### Alphabetical Listing

If you are not sure what category to look under, look for your drug in the Index that follows the formulary. The Index provides an alphabetical listing of all of the drugs included in the formulary and the page where they can be found in the formulary.

## Can the formulary change?

Yes, the list is subject to change. Drugs may be added or removed at any time.

## Where can I purchase my prescription medications?

You have access to our Pharmacy Network, including national chains and most independents. Just show your Member Card at any participating pharmacy and they will fill your prescription. A list of participating pharmacies in your area is available on our website [UniveraHealthcare.com](http://UniveraHealthcare.com).

## Specialty pharmacy

Specialty pharmacies are experts in handling and distributing specialty medications. Nationally recognized specialty pharmacy Accredo Health participates in our network.

## Are there any restrictions on coverage?

Some covered drugs may have additional requirements or limits for coverage. If a drug has requirements or limits, it will be noted in the formulary. They may be covered if your doctor shows that you meet the medical guidelines for the drug and gets approval before you get your prescription filled.

### Coverage requirements or limits may include:

#### Prior Authorization

There are some drugs on the formulary that need prior authorization, which means they need approval **before** you can fill the prescription. If you don't get approval, the drug may not be covered.

#### Step Therapy

In some cases you may be required to first try one or more drugs to treat your medical condition before another drug for that condition will be covered. The medication treatment moves along a series of “steps.” For example, if **Drug A** and **Drug B** both treat your medical condition, we may not cover **Drug B** unless you try **Drug A** first. If **Drug A** does not work, we will then cover **Drug B**.

#### Specialty Drug Benefit

Some drugs need to be purchased at our preferred specialty pharmacy Accredo Health or another participating specialty pharmacy in order to be covered. If you don't purchase them through a participating specialty pharmacy the drug will not be covered. These drugs are listed on the formulary.

#### Quantity Limits

For certain drugs, we limit the amount of the drug that we will cover. The amount of drug we cover is based on FDA approved dosing and usage guidelines.

#### Over-the-Counter Drugs

The Child Health Plus benefit allows coverage for Medicaid-approved over-the-counter drugs.

### Key:

**UPPERCASE** – Brand name medication

**lowercase** – generic medication

**PA** = Prior Authorization required

**QL** = Quantity Limit applies

**ST** = Step Therapy required

**MS** = Drug must be purchased at a participating network specialty pharmacy for coverage

**CURRENT AS OF 11/26/2024**
