 Regardless of the preauthorization requirement under the member contract, claims for the following medical specialty drugs will deny or suspend for review across all lines of business if preauthorization is not obtained.
 - > Please refer to our website frequently for updates to this list as new drugs are added as they receive FDA approval and are available for use.
 - > The provider or specialty pharmacy rendering the service is responsible for ensuring that the required preauthorization has been obtained.
 Participating specialty pharmacy contact information is included on our preauthorization form.
