

2024 3-Tier State Mandate Formulary Guide (2950)

Includes generic and brand-name medications

UniveraHealthcare.com

Right here.
For you.

Dear Member,

The prescription drug benefit is one of the most important and frequently utilized elements of health plan coverage. To help you identify which medications are covered under your plan, we are pleased to provide the **3-Tier State Mandate Formulary Guide**. This booklet provides you with easy to understand information about your prescription drug coverage including descriptions of prescription drug safety and cost-saving programs.

The **3-Tier State Mandate Formulary Guide** lists commonly prescribed medications and their tier classifications. The medications listed have been approved by the Food and Drug Administration as safe and effective and were selected in consultation with a team of health care professionals because they meet our criteria for safety, quality and value. We continually review and update our formulary.

The drugs listed in the formulary and program descriptions may not apply to all plans. Please see your plan documents or contact the Pharmacy Help Desk at 1-800-499-1275 for a complete description of your pharmacy benefit.

This booklet includes the Formulary Guide and prescription drug benefit information. Please refer to this booklet when you see your healthcare practitioner or are prescribed a medication.

The drugs listed in the formulary and program descriptions may not apply to all plans. Please see your plan documents for a complete description of your pharmacy benefit.

If you have questions or need additional information, please visit our website UniveraHealthcare.com or contact the **Pharmacy Help Desk at 1-800-499-1275**.

What is a formulary?

A formulary is a list of brand name and generic drugs that are covered under your prescription drug benefit.

How is the formulary developed?

Drugs listed on the formulary were selected by our independent Pharmacy and Therapeutics (P&T) Committee which is made up of practicing health care providers and clinical pharmacists. The P&T Committee reviews each drug based upon scientific evidence, findings by federal government agencies, professional medical associations and journals to help ensure that the medications covered meet criteria for safety, effectiveness and value.

How do I use the formulary?

There are two ways to find your drug within the formulary:

Medical condition

Drugs are listed in alphabetical order according to drug categories. For example, drugs used to treat heart conditions are listed under the category "Cardiovascular." Drugs are listed in alphabetical order by condition.

Alphabetical Listing

If you are not sure what category to look under, look for your drug in the Index that follows the formulary. The Index provides an alphabetical listing of all of the drugs included in the formulary and the page where they can be found in the formulary.

Preferred Value 3-Tier Drug Benefit

Your Preferred Value 3-tier prescription drug benefit allows you to make informed choices and encourages value when choosing your prescription medications. Your copayment will vary depending on the tier in which your prescription drug is placed.

- **Tier One** drugs are typically generics and have the lowest copayment amount.
- **Tier Two** drugs are brand drugs that have unique, significant clinical advantages and offer overall greater value over the other products in the same drug class.
- **Tier Three** drugs are all other brand drugs, including new brand drugs and drugs that have generic equivalents. Tier Three drugs have the highest copayment amount.

The Preferred Value 3-Tier Formulary Guide lists commonly used medications and their tier designations. Because there are thousands of medications included in your pharmacy benefit, we list only the most commonly prescribed.

Your plan may not cover all medications listed in this booklet. Please see your plan documents for a complete description of your pharmacy benefit, or call the Pharmacy Help Desk at 1-800-499-1275.

Can the formulary change?

Our P&T Committee regularly reviews the drugs on our formulary to be sure they meet the criteria for safety, effectiveness and value. Drugs may be added or moved to a lower tier at any time. Drugs may be removed or moved to a higher tier yearly.

Generics Are Real Medicine

Generic drugs: safe, effective, affordable!

To help keep your prescription drug costs down, choose a generic drug over a brand. Generics are as safe and effective as their brand name counterparts – they just cost a lot less.

In fact, you'll save money when you choose a generic because generics have the lowest copay. That means you'll always pay the lowest out-of-pocket amount for a generic.

Generic drugs treat your illness or condition with the same effectiveness and safety as their brand name equivalents because they have to meet the same rigorous FDA requirements as brand name drugs.

Experience has shown that more than 90% of members who start on a generic will stay on a generic. So the next time you need your brand prescription filled, ask your doctor or pharmacist if a generic is right for you.

Where can I purchase my prescription medications?

You have access to more than 65,000 participating pharmacies in our nationwide Pharmacy Network, including national chains and most independents. Just show your Member Card at any participating pharmacy; it identifies you as having prescription drug coverage. A list of participating pharmacies in your area is available on our website UniveraHealthcare.com.

Mail Service Pharmacy

Get your prescriptions delivered right to your door! When you use Express Scripts Home Delivery PharmacySM or Wegmans[®] Home Delivery Pharmacy, you get the convenience of home delivery and the ease of ordering new prescriptions and refills either by phone or via our website. Some benefits offer copay savings for ordering prescriptions through Express Scripts Home Delivery PharmacySM or Wegmans[®] Home Delivery Pharmacy.

Using a home delivery pharmacy is ideal for those who take prescription medication on a continuing basis. For more information on how to use Express Scripts Home Delivery PharmacySM or Wegmans[®] Home Delivery Pharmacy, please visit our website at UniveraHealthcare.com or contact the Pharmacy Help Desk at 1-800-499-1275.

Specialty pharmacy

Specialty pharmacies focus on you and your individual health care needs. Because they work exclusively with specialty medications, they are experts in handling and administering these complex medications. Nationally recognized specialty pharmacy Accredo Health participates in our network. Accredo offers outstanding customer service and is dedicated to providing quality care to our members. With a single, toll-free phone call they take care of all the details – they will contact your doctor for your prescription and arrange delivery to your home. There are several local/regional specialty pharmacies also participating in our specialty pharmacy network. A complete listing of participating specialty pharmacies is available on our website UniveraHealthcare.com.

Are there any restrictions on coverage?

Some covered drugs may have additional requirements or limits for coverage. If a drug has requirements or limits, it will be noted in the formulary.

If your healthcare practitioner determines that you need a medication that has a requirement or limit, we have an exception process in place. Your healthcare practitioner must submit a request to the Health Plan supporting your need.

Coverage requirements or limits may include:

Prior Authorization

Prior authorization helps ensure that a prescribed drug is safe and appropriate for your medical condition. Certain medications require that your doctor gets approval **before** the medication is covered. Our clinical pharmacists and physicians review medication requests to make sure that the choice of drug or dose

is appropriately prescribed based on Food and Drug Administration (FDA) and manufacturer guidelines, medical literature, safety, use and benefit design.

Step Therapy

In some cases you may be required to first try one or more drugs to treat your medical condition before another drug for that condition will be covered. The medication treatment moves along a series of “steps.” For example, if **Drug A** and **Drug B** both treat your medical condition, we may not cover **Drug B** unless you try **Drug A** first. If **Drug A** does not work, we will then cover **Drug B**.

Specialty Drug Benefit

Specialty medications are designed for conditions like multiple sclerosis, rheumatoid arthritis, hepatitis C, and others that are difficult to treat with traditional medications. These medications are self-administered: either taken orally or by injection.

Your prescription drug benefit may require that you purchase certain specialty medications at a specialty pharmacy that participates in the Specialty Pharmacy Network in order to receive coverage. If a participating specialty pharmacy is not used you may be responsible for the full cost of the prescription. A complete listing of participating specialty pharmacies can be found on our website, UniveraHealthcare.com.

Quantity Limits

For certain drugs, we limit the amount of the drug that we will cover. The amount of drug we cover is based on FDA approved dosing and usage guidelines.

Generic Advantage Program

The Generic Advantage program promotes the use of generic medications. If you fill your prescription with a brand name medication when there is a generic equivalent available, you will pay the difference between the pharmacy’s charge for the more costly brand name medication and our price for the less expensive generic. Check your benefits summary to find out if the Generic Advantage program applies to your plan.

Key:

UPPERCASE – Brand name medication

lowercase – generic medication

PA = Prior Authorization required

QL = Quantity Limit applies

ST = Step Therapy required

MS = Drug must be purchased at a participating network specialty pharmacy for coverage
